Wednesday May 18, 2011 - 1PM Eastern / Noon Central
Monthly Feature: AdminStudio Presentation

June 2011 User Group Call

Wednesday June 15, 2011 - 1PM Eastern / Noon Central
Monthly Feature: tbd

July 2011 User Group Call

Wednesday July 20, 2011 - 1PM Eastern / Noon Central
Monthly Feature: tbd

Upcoming CM-UG Events

Potential Meeting Topics/Demos

Open to presentations from CM-UG Members and Vendors.

- Member Presentations:
 - [Stopping channel shopping \(Josh L\)](#)
 - [Custom inventory scanning \(Jason M\)](#)
 - Custom Reporting interfaces
 - Custom ARS interfaces

- Vendor Presentations:
 - [Marimba 8.2 Roadmap \(BMC\)](#)
 - [AdminStudio Info \(Flexera\)](#)
 - Marimba/Matrix42 VDI Solutions
 - BMC Product Roadmaps

Suggest a topic:

If you have a topic you would like to discuss as a monthly feature please

send an email to

Chris@CM-UG.com

Issues/Concerns

- 8.2 Expected Release to GA
- Channel Corruption issue (Bryan D)
- Windows 7 Tuner issues resolved by 8.1.01.005 (BMC/Matrix)
- Call for users of FDCC scan component

Channel Security Scripts – From April 2011 topic

Located on BMC Communities:

<https://communities.bmc.com/communities/thread/53780>

The screenshot shows a forum thread on the BMC Communities website. At the top, the BMC Software logo is visible along with navigation links for Home, Solutions & Services, Products, Partners, Support, and Education. The user 'Chris Armstrong' is logged in, with a 'Welcome, Chris Armstrong (Log out)' message and options for 'New', 'Your Stuff', and 'Browse'. The breadcrumb trail indicates the thread is in the 'BMC Configuration Automation for Servers (Marimba)' section. A notification states: 'You have 15 minutes to un-mark this discussion as a question if you didn't mean to mark it as such.' The thread statistics show '0 Views', '0 Replies', and the latest reply was on May 17, 2011, at 12:12 PM by Chris Armstrong. The post itself is dated May 17, 2011, at 12:12 PM and is titled 'Channel Security Discussion - April2011'. It is marked as 'Not Answered'. The content of the post is a placeholder for scripts and details related to the April 2011 CM-UG topic of channel security by Josh L., and includes a link to a PDF document: 'Pages 4-12 of PDF - http://www.cm-ug.com/files/4-20-2011_CM-UG_Minutes.pdf'. The post has 0 likes and 0 replies. Tags include security, installation, bmc_configuration_management_7.1, cm, configuration, marimba, bmc_change_and_configuration_management, bmc_configuration_management, automation, bcac, deploy, tuner, channel, vbs, and bmc_configuration_management_8.0.

Admin Studio Demo / Info from Flexera

Please join special guests – Jeanne Morain, Christian Laws, and Ravi Mazumdar for a technical overview of AdminStudio's enhanced capabilities around Windows 7 migration and Application Virtualization.

Ravi Mazumdar – Vice President of Engineering for InstallShield & AdminStudio will be providing a demo overview of enhanced virtualization capabilities within AdminStudio such as AppV suitability testing, bulk conversion from physical to virtual packages, and windows 7 migration strategies that can be directly published to a Marimba/BMC transmitter.

Please note – this will not be a marketing pitch so there will be limited slides – 1-2. If you would like additional information please see the product datasheet link below:

http://www.flexerasoftware.com/webdocuments/PDF/ds_AS10.pdf

Join the Live Meeting:

Marimba Segments Issues (OS/Arch precedence)
 How do you all deal with the segment precedence issues with OS or ArchTypes?
 So far the answers are:
 1. Install a Dummy segment for the OS/Arch you do NOT want the install to occur on.
 2. Create a dependency on a req key which would ensure the OS/Arch matches.
