Hey guys, what is the proper procedure to handle ms11-043 patch re-release? Do I need to rebuild the patch repo? Thanks.
posted 16 days ago

Joe Savino 14 days ago • update repository. Attach patch to a temporary gorup and force publish patch. ... »

Marimba Jobs

› Jobs.CM-UG.com

› Look for CM related positions

› Post Req's for CM related positions

The screenshot shows the Marimba Jobs website interface. At the top, there is a navigation bar with links for Homepage, Forums, Resources, About Us, and Get Connected. Below this is a search section with a 'Refine your search:' dropdown menu containing filters for Title, Company, and Location. The 'Title' filter is expanded, showing various job titles like 'Help Desk Support', 'System Engineer Sr Professional', etc. To the right of the search filters is a 'Post a Job' button with a price of '\$99 for 30 days'. Below the search filters is a search form with fields for 'Keywords' (Job Title, Skills or Company), 'Location' (City, State or ZIP), and a distance dropdown set to 'within 25 miles'. A 'Search Jobs' button is also present. The main content area features a table of job listings with columns for 'Posted', 'Job Title', 'Company', and 'Location'. A yellow banner above the table says 'Looking to hire? Post your job today!'. Below the table, there is a section for 'Featured Job Postings from the Web' with three entries: a 'System Engineer Principal Leader' at Computer Sciences Corporation (CSC) in Falls Church, VA; an 'NC - Wintel Sr Server Engineer - Server Admin & Security job' at Randstad in Charlotte, NC; and a 'Help Desk Support' position at Verizon Communications in Lewisville, TX.

Upcoming CM-UG Events
